

March 6, 1975

SENATOR DWORAK: My subsequent motion was to return the bill to committee to review these matters. Senator Marsh said that this should have gone to the committee for public hearing. I'm in total agreement. I think it should be returned to committee for public hearing, as Senator Marsh indicated. I so move that it be returned to committee, as the introducer suggested in their discussion.

PRESIDENT: I think it should go to Select File first, then be off of Select File, back for public hearing.

SENATOR DWORAK: What do you want? A motion then? This bill is not before the body at this time, because it's on E & R. It should go back to Select File. Senator Marsh's light was on first Senator Kelly.

SENATOR MARSH: I would object to returning it to Select File. I would suggest that Senator Dworak might wish to introduce that piece of legislation himself, including the areas which he is so vitally interested in. I certainly hope he doesn't louse up my bill by trying to get his two ideas in when he has the opportunity to introduce legislation on his own.

PRESIDENT: The Chair has ruled that Senator Dworak's motion to return to committee is out of order. We still have before us Senator Dworak's motion to return to Select File for specific amendment. At that time a subsequent motion might be in order. Senator Kelly.

SENATOR KELLY: Mr. President, members of the Legislature, at this time I would move that we hold this bill and print the amendment in the Journal.

PRESIDENT: There is a motion to bracket the bill, to what date?

CLERK: No, Mr. President. It is bracketed. The bill is presently bracketed on E & R for engrossing.

SENATOR DWORAK: Mr. President, my motion to return the bill to Select File and have this amendment printed in the Journal, so that we can take it up for amendment tomorrow, is that in order?

PRESIDENT: Your motion to return to Select File for specific amendment is in order.

SENATOR DWORAK: OK.

PRESIDENT: Is there any further discussion on that motion? Senator Koch.

SENATOR KOCH: Mr. President and members of the body, I rise to oppose Senator Dworak's motion. I suggest that we kill it and move this bill forward. We all know what it's about now.

PRESIDENT: Are you moving to indefinitely postpone?

SENATOR KOCH: Senator Dworak's motion, yes, to return. We oppose his motion to return and I'm calling for the question.
